

As such, it would seem you will be some pay enough to see from town to there!

I have been confined to these grounds these times long past, for I have been appointed as guardian of the mountain!

'Kaku Kaku!'

What a fine thing you are!

I am playing myself here about how to live.

He's really dead!

To think...

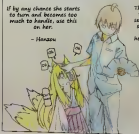

If by any chance she starts to turn and becomes too much to handle, use this on her.

Though the fox god of the mountain may seem friendly at first, she can grow highly jealous and won't hesitate to possess or curse others.

## Some notes

The translator did this scanlation anonymously  
(I the uploader am not here)

The author of the work is  
1/13/97/2/10/Barikios

He referred to the work on [DeviantArt](#) and has since drawn dozens of illustrations without love of the main character doing random things. The author has also trusted over doing a release for comic and is experimenting with the concept of a "Dark skinned lol lol who was born when Japanese soldiers occupied the jargons south-east asia and both of them there, and when they left she remained at the shrine, where she faces the sea and still waits for someone to come and find her."  
(I've paraphrased that from my memory)

This author also looked over the translation and used only the name of the main lead was wrong, but that I didn't notice

More good things may come.  
I'll include a few recent pictures here to encourage people to look at his illustrations on twitter
